

Newflora ceased commercial operations in 2017 when we retired, however the name lives on. Newflora® is a great tradename that has good potential for future use. The following intellectual property is for sale:

- Registered domain: www.newflora.com
- Newflora® US registered trademark # 4,421,770.

A great opportunity for a plant breeder or other horticultural entity to have the combination of the domain name protected by a US registered trademark. We also have a nice logo that may be of interest as well. For information concerning this domain and trademark, please contact its owner.

Gary Pellett at gary@newflora.com.
